

You'll speak to the Doctors directly.

Skip the triage

In testament to the quality and experience our physicians bring to the table, we proudly note:

Our physicians combined have over 90 years of tactical medical expertise, including experience in Emergency Medical Services/ EMS Directorship/ Emergency Department Care, Air Force Special Operations, and Aerospace Medical Services both while at home and deployed abroad.

We proudly served the US Military by providing the following:

- Over 50 years combined as Air Force Senior and Chief Flight Surgeons and in positions such as Chief of Clinical Services, Chief of Aerospace Medicine, and Chief of Occupational Medicine in our respective units.
- Provision of direct Operational and Contingency medical planning and implementation for thousands of military members deployed in multiple theatres and named operations.
- Leadership and Command experience in numerous military operations including Operations Desert Shield/Storm/Calm, Operation Provide Comfort, Operation Iraqi Freedom, Operation Noble Eagle.

Our physicians are experienced educators and their backgrounds include:

- Active instruction in Medical Education and Training of U.S. and foreign military and civilian physicians and nurses in Advanced Trauma Life Support and Advanced Cardiac Life Support.
- Academic Appointments as Clinical Professors at Indiana University, Marian University, and Western Michigan University.
- Member of the EAA's Aeromedical Council and author of many Aerospace Medicine educational articles for the member publications of the EAA.

We are Doctors that astronauts rely on:

- We have designed and supported NASA Rescue Programs in Human Space Flight, in the past the present, and looking toward the future... including Space Shuttle, Soyuz, Orion, and Commercial Crew rescue operations.

Extensive FAA experience and background includes:

- Many years of experience as Senior FAA Aviation Medical Examiners (AME's).
- Experienced as FAA instructors for current and future AME physicians.
- Two of our physicians hold appointments as Consultants to the Federal Air Surgeon.
